

PERSONAL DATA ELEMENTS NEEDED FOR NONRESIDENT LICENSE PURCHASE

This form is intended to be used by an individual who is purchasing a NONRESIDENT license on behalf of another person. The personal data elements necessary for license purchase are indicated below. This form CANNOT be used for the purpose of buying resident licenses. An individual buying a resident license must be present at the time of purchase (the only exception to this is for resident youth as their parent or legal guardian may purchase their license).

This is not an application form. This is a form to get organized with the personal information needed when you either come to a license selling agent or access the website to purchase a nonresident license.
